## SKILLS

Nodejs	Reactjs	JavaScript	Data Science	MongoDB	C++
React Native	MySQL	Python	Bootstrap	Flask	Git

## WORK EXPERIENCE

### Python Developer Intern(Python | ReactJS | OOPs)

IIT Kanpur

05/2019-06/2019

- Worked on a traffic simulator to minimize waiting time at circle.
- <https://github.com/ayushnagar123/IIT-K-1>

### Angular Developer Intern(AngularJS | JavaScript)

ENIMM Crews Private limited

12/2019-01/2020

- worked on OOD-eat and logeve website.
- <https://logeve.com/#/home>

### MERN Developer Intern(NodeJS | ReactJS | MongoDB)

Codeuino Foundation

05/2020-07/2020

- Worked on codebadge project to analyse the contribution and award badges.
- <https://github.com/ayushnagar123/codebadge-frontend>
- <https://github.com/ayushnagar123/codebadge-bend>

## EDUCATION

Qualification	Year	Institute	University	Branch	Percentage/CGPA
B.tech.	2017-21	JIIT,Noida	Jaypee University	IT	7.5
12th	2017	DPS Ghaziabad	CBSE	PCM	89%
10th	2015	St. Pauls Academy	ICSE	NA	88%

## PROJECTS

### Automated Grocery List(React Native | Flask | ML)

- This native app keeps the daily track of the user's grocery and predicts daily product needs. This app will create a shopping list automatically based on past transactions. It also recommends the items which are bought by other users.
- <https://github.com/Code-with-ease/Smart-list-app>

### Pantomath(React | ML | Flask | NLP | Twitter API)

- This web application analyses twitter user personality and how frequently one delivers hate speech tweets.
- <https://github.com/Code-with-ease/Pantomath>

### Rode not taken(C++ | OOPs | Graph | Graphviz)

- This c++ based project to determine the best shortest path for the cab driver when the traffic on the roads are changing in time to time.
- <https://github.com/ayushnagar123/road-not-taken>
